

EXTREME MAKEOVER: HOME EDITION AND NO-BURN® TEAM UP!

AIRED JANUARY 9TH, 2005 ON ABC TV

Extreme Makeover: Home Edition chose to “makeover” the Dore Family’s home because of a fire that ravaged their home in March 2004. Roseanne, a widow and the mother of three girls, had built their old home with her husband. In addition to the devastating news of the fire, the Dore family found out that their homeowner’s insurance policy had lapsed when their agent retired. The money they received was not enough to cover the rebuilding of their home, forcing them to move into a backyard utility shed that had no heat, no plumbing, no electricity, and no running water.

We were very excited to be asked by one of the producers of the show to be a part of *Extreme Makeover: Home Edition* and give a family a “new life”. Our team, Mark & Dell Harrison of NO-BURN® Canada headed off for Kingston, Washington with the inventory and the equipment needed for the job. Ken Rusk also flew out for additional man-power.

As many people know the show builds and furnishes an entire house in 7 days, which is why for this project we were not able to give the house the full NO-BURN® treatment. However, we are pleased to say that all of the carpet, furniture, area rugs and most of the mattresses in the house were treated with NO-BURN® Fabric Fire Gard!

In addition to applying the NO-BURN® products, the team pitched in wherever they could to make sure the Dore Family’s new home was done on time. The construction and design crews worked all day and most of the night for the entire 7 days to deliver a huge home from foundation to furnish. Ken and Mark Harrison also helped out the crew to install the chimney!

When it was all over, our guys came home, tired but with a great feeling of accomplishment. The back-to-back-to-back twenty-hour days were worth it to see the gratitude on the faces of a very deserving family who were given a fresh new start in life.
