Mr. Chris Caldwell
No-Burn, Inc.
1392 High Street Suite 211
Wadsworth, Ohio 44281

Dear Mr. Caldwell,

Please accept this letter of recommendation for the No-Burn product.

On December 22, 2007 a high voltage wire broke and fell on a portion of our roof and a metal supporting bracket. The ensuing electrical short created a great deal of sparking and heat and the roof caught on fire. The fire penetrated into the interior wood-framed structure in two different locations but did not spread because of the No-Burn product applied to the interior.

Fortunately, there were people working that Saturday so the Fire Department was alerted immediately. When the TFD arrived on-scene the fire had not spread and was easily extinguished. We credit No-Burn with saving a large portion of the roof and limiting the damage to two small areas.

I highly recommend this product to any business that operates in a building with a wood-framed roof.

Very best regards,

Willard A. Emery
President
