## Project Background

The 2007 New Southern Home in Orlando, Florida, which will be built for display during the 29th annual Southeast Building Conference (SEBC) being held at the Orange County Convention Center July 12-14, 2007, and will remain open to the public during the International Builders' Show.

## Value to Purchaser

The "New Southern Home" is a showcase home featuring the design, luxury and technology which will set the pace for new home standards and the lifestyle of the South. Featuring the latest and most innovative products available in the marketplace, the 2007 New Southern Home incorporates "green" technology. Ultimately, the mission of the New Southern Home is two-fold: to celebrate innovative and creative architecture, building and interior design, and to educate.
